

## **Largo Public Library Solar Installation Project**

**Proposed Recipient:** City of Largo, FL

**Address of Recipient:** 201 Highland Ave N, Largo, FL 33779

**Amount of the Request:** \$265,000

**Explanation:** Funding would be used to install a 150 kilowatt solar panel system on the roof of the Largo Public Library, thereby reducing the facility's reliance on the grid, saving considerable taxpayer funds on energy expenses, and providing the facility with a long-lasting source of renewable energy for up to 20 years. This project also supports the City's goal of 100% renewable energy at all city facilities by 2035.
