

## **Baypointe Regional Stormwater Treatment Facility**

**Proposed Recipient:** Pinellas County, FL

**Address of Recipient:** 315 Court St., Clearwater, FL 33756

**Amount of the Request:** \$3,000,000

**Explanation:** Funding would be used to convert a defunct golf course into a regional stormwater conservation area. Since the County's acquisition of the property in December 2019, the site has been designated as a Brownfield, so funding would also enable the County to complete the Brownfield Site Rehabilitation Plan with the Florida Department of Environmental Protection. When completed, this project will reduce flooding in the watershed, improve water quality, enhance native habitat, provide a wildlife corridor, complete the Brownfield investigation, and provide passive recreation within the County.
